# Haldex Air Disc Brake Pads

Premium Haldex OEM brake pads, engineered for optimal performance with ModulT & ModulX caliper systems.

**Haldex Website (https://www.haldex.com/en/north-america/)**

**Air Disc Brake Product Information (https://www.haldex.com/en/north-america/support/literature–documents/?ConnectedTos=59284)**

## Performance is Key

Haldex OEM disc brake pads are designed for extreme and reliable performance and durability in demanding commercial vehicle applications

## Optimized Friction Material

Optimized friction material formulation ensures consistent braking performance and minimizes wear

## Noise Reduction

Haldex pads are engineered to reduce noise, vibration, and harshness (NVH) for a quieter and more comfortable braking experience

## Environmental Sustainability

Haldex is committed to sustainability, and our OEM disc brake pads are designed with environmental considerations in mind, meeting N Level copper-free compliance

## Top Movers

| Material No. | Material Description | Application | Caliper Application | Caliper System | Generation |
|---|---|---|---|---|---|
| HDX 790-22040 | Air Disc Brake Pad Kit, Copper Free | 1 Wheel End (2 pads) | ModulX | DB22LT | GEN II |
| HDX 790-22117 | Air Disc Brake Pad Kit, Copper Free | Full Axle Kit (4 pads) | ModulT | DBT22LT | GEN II |
| HDX 790-95396 | Air Disc Brake Pad Kit, Copper Free | Full Axle Kit (4 pads) | ModulT | DBT22LT | GEN I |
| HDX 790-22031 | Air Disc Brake Pad Kit, Copper Free | 1 Wheel End (2 pads) | ModulX | DB22 | GEN I |

## Product Information

Haldex's Genuine OEM air disc brake pads are designed and manufactured to meet the high standards of performance and reliability required in commercial vehicle braking systems. Our OEM pads are specifically engineered to provide consistent and reliable braking performance, ensuring safe and effective operation.

Key features of Haldex's Genuine OEM air disc brake pads:

1. **High-Quality Materials:** Made from high-quality friction materials designed to withstand the heat and pressure generated during the toughest braking conditions.
2. **Optimized Design:** Designed to provide optimal braking performance, including features of precise pad thickness and shape to ensure the best pad to rotor contact, resulting in even wear and consistent braking.
3. **Noise Reduction:** Haldex brake pads are engineered with noise-reducing features in mind. Minimizing brake noise and vibration provides a smoother and quieter braking experience.
4. **Durability:** Built for durability, our pads are built to last, reducing the frequency of replacement and maintenance.
5. **Compatibility:** Haldex's Genuine OEM ADB pads are designed to be compatible with Haldex ADB systems & components, ensuring proper fit and performance.

It's important to refer to Haldex's specific product documentation and recommendations for detailed information on our Genuine OEM disc brake pads, as specifications and features may vary depending on the application and model.
