# Alliance Air Dryer Cartridges

## General Product Information

The function of the Alliance Air Dryer Cartridge is to collect and remove solid, liquid, aerosol contaminants from the air generated by the truck’s compressor. Therefore, compressed air going to air tanks and complete brake and suspension systems is dry and clean.The Air Dryer Cartridge product line covers a broad range of standard and coalescing air dryer cartridges applications for our customer needs.

## Product Highlights

- Product line covers a broad range of standard and coalescing air dryer cartridges applications for our customer needs.
- Built with quality desiccants that prevents contamination, moisture and corrosion in the air system to ensure product performance and quality without premium pricing.
- Built in an automated assembly line and computer-wised test bench, ensuring great quality.
- Certificated test lab validation ensuring performance and service life.
- In stock and ready to ship directly from our DTNA PDC network.

Specifications:

- Working temperature: -40° to +80°C
- Max working pressure: MAX. 1,3 Mpa (188 psi)
