General Product Information

About Jones Performance Products

Jones Performance is the largest manufacturer of aftermarket truck hoods. Our product is known for its strength and durability, which allows it to perform in the most severe working conditions. We have strict procedures in place to make sure you get a quality hood each and every time. Superb fit and durability makes Jones the “Preferred Hood.” We are also the preferred source for class 6 – 8 truck parts.

Warranty Information

Two year limited against manufacturing defects or inner structure failure. Warranty covers hood only.

Supplier identification number will be inside each hood for warranty administration.

Because of the nature of open molded fiberglass Jones Performance cannot warranty gel-coat cracks. This is also known as starburst or spider cracking. Our experience has shown us that forklifts are generally the biggest culprits, it should be noted, if the forklift forks do not go all the way through the hood (rear to front) do not use forklift to move hood.

Guarantee hood to fit

Warranty validation card included with each hood. Click here for the Warranty Validation Card if you misplaced your original card.

Installer survey card included with each hood. Click here for the Installer Survey Card if you misplaced your original card.
