

Citizens Band (CB) radios have long filled the role of allowing citizens to talk to other radio users nearby. Although there are many other communication options available today for both near and far field communication, CB radios have many advantages that make them a popular choice among professional drivers. CB radios are also popular among off-roaders, RV owners, and for motor coach applications.

CBs are commonly used by professional drivers to stay in communication with one another and to provide alerts to each other about driving conditions – such as accidents, road construction, speed traps, adverse weather conditions, and traffic jams. CB radios offer a safe alternative to other communication mediums, while also acting as a faithful companion for the long distance driver.

Cobra and Uniden CB Radios:

- Are advanced mobile radios designed for using the Citizens Band (CB) Radio Service
- Operate on any of the 40 AM frequencies authorized by the Federal Communications Commission (FCC)
- Can be ordered for all-makes applications at no additional charge
- Are designed specifically for commercial vehicle applications
- Do not require a license for usage

Product Highlights – Cobra

Stay connected and informed with Cobra's dependable professional CB radios. For over 60 years, Cobra CB radios deliver unmatched reliability and performance, making them the #1 choice for truckers and professional drivers.

Cobra's professional-grade CB radios are built to be durable, reliable communication solutions for truckers and other professional drivers. Whether it's to communicate with friends, family, or colleagues, Cobra's high-power CB radios ensure crystal-clear sound with adjustable settings for optimum performance and instant access to emergency channels and alerts.

In 2021, Cobra led the charge in the FCC's decision to add dual-mode AM/FM for use in CB radios in the United States. Now with FM capabilities, Cobra CB radios produce better sound quality without the need to replace your existing antenna. In addition, the new AM/FM CB radios are backwards compatible so you can easily communicate with older AM-only CB radios.

- **Classic CB Design:** Cobra's classic CB radio design with 4 Watts of power and access to all 40 CB channels
- **Dual-Mode AM/FM:** Access AM and FM channels to communicate with more users and with better sound quality
- **Easy to Operate:** Ergonomic design with intuitive controls make this CB radio easy to use and operate
- **Instant Access to Channel 9:** Instantly switch from normal operation to channel 9 in case of emergencies or accidents
- **Adjustable Receiver Sensitivity:** Easily adjust RF Gain for the best signal or Squelch to minimize background noise
- **SWR Calibration:** Adjust and calibrate your SWR meter for optimum antenna performance
- **Antenna Warning Indicator:** Know when your antenna needs checking with the illuminated indicator
- **Dynamike Boost:** Adjust Dynamike Boost for communication that's loud and clear
- **Easy to Reach:** The included 9 foot microphone cable makes it easy to reach and talk
- **4 Watts Power:** Maximum power allowed by law for extended range of communication
- **Full Coverage:** Access all 40 CB radio channels with new dual-mode AM/FM

- **Mounting Bracket & Mic Hanger:** Includes CB radio mounting bracket and microphone hanger hardware

Product Highlights — Uniden

Uniden has been the most recognized and trusted brand for CB Radios for over 50 years by keeping the professional driver safe and informed. Uniden's proven quality standards and advanced features have made Uniden the preferred brand in wireless communications. Uniden CB Radios are built "Trucker Tough".

Select from a wide range of professionally mounted or handheld CB Radio models to meet your budget and needs.

- **7 Color Customizable Digital Display:** Choose one of the 7 colors to match the vehicle's dashboard
- **NOAA Weather Scan & Alerts:** One-touch access to local weather information
- **40 Channel Operation:** Enjoy the complete range of 40 CB radio channels to communicate with those around you
- **Integrated SWR Antenna Calibration:** Built-in SWR meter to precisely tune your antenna for best signal and reception
- **RF Gain & Mic Gain:** Adjusts receiver sensitivity for better reception and microphone sensitivity for 100% modulation
- **Automatic Noise Limiter / Noise Blanker:** ANL reduces external noise and NB reduces interference from the vehicle's ignition system
- **Instant Channel 9 & 19:** Quickly set the radio to emergency channel 9 & 19
