DETROIT™ REMAN

Premier Multiplexing Chassis Modules

DTNA Parts is proud to announce the release of the DDR A66 19809 00R Multiplexing Module for Freightliner's M2 Chassis.

The DDR A66 19809 00R Multiplexing Module is being released to service the A66-03087-000 & A66-19809-000 Genuine Multiplexing Modules.

Detroit REMAN Premier Multiplexer Chassis Modules are remanufactured using proven recovery processes and techniques that are guaranteed to get you back on the road without compromise to performance or quality.

Product Highlights

Core Receiving and Inspections
All incoming core is received, inspected, and tested to confirm the core module's root cause failure mode.

Core Teardown
After the inspection process, all core is sorted, torn down, and prepared for recovery processes.

Product Recovery
Product recovery is executed in a clean, static free environment that allows core multiplexing modules to be remanufactured to OEM specifications.

Functional Testing
Remanufactured multiplexing modules are all functionally tested prior to shipping.

Product Availability
All remanufactured multiplexing chassis modules are available within the DTNA PDC Network.

Top Movers - Multiplexing Chassis Modules

General Product Information

Remanufactured multiplexing modules from Detroit REMAN provide a cost-effective alternative to new parts with performance, durability and reliability that meet or exceed the original equipment manufacturer. Not simply a rebuild, our remanufacturing process begins by using only high-quality cores and replacement components. Combine this with industry leading remanufacturing experience and expertise, we deliver engine components you can trust.

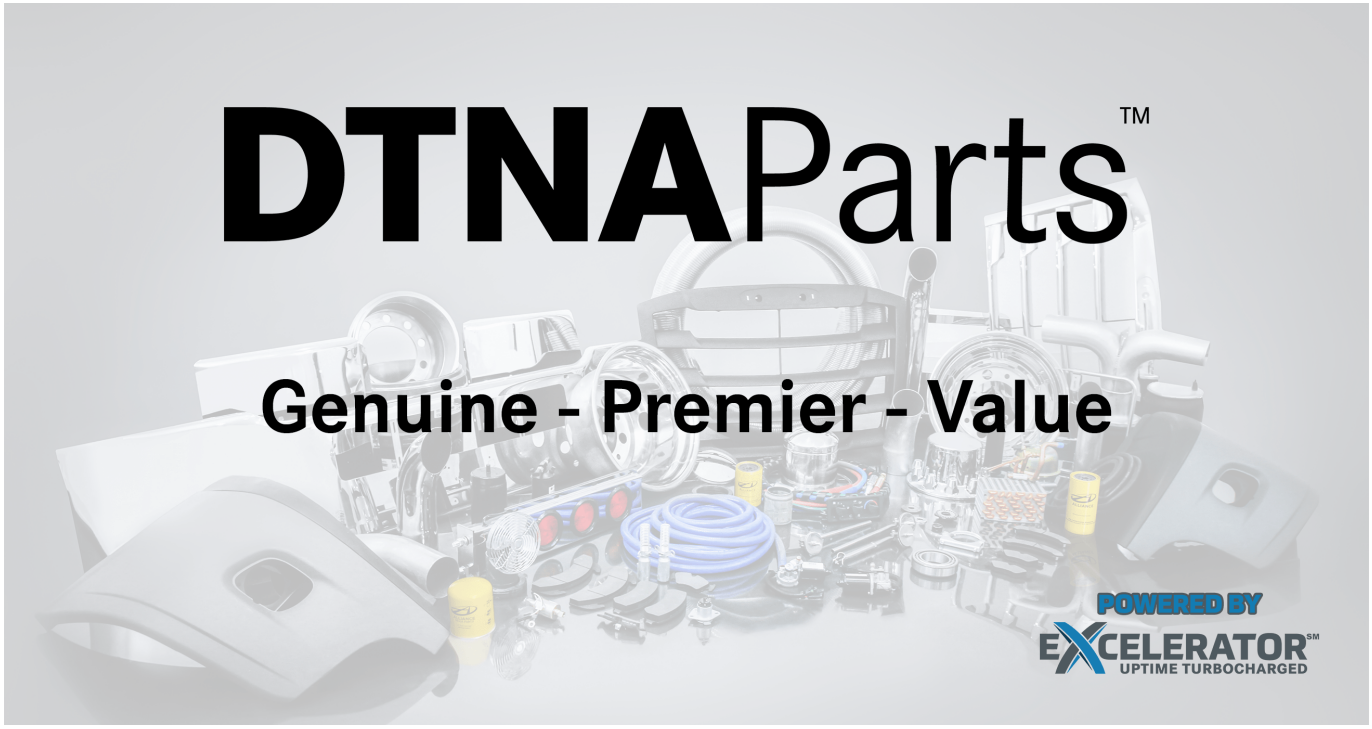

Warranty Information

Backed by the Detroit REMAN 1 Year / Unlimited Mile Warranty
