

Power Inverters are an economic alternative to purchasing costly 12V DC appliances, allowing you to drive the open road and still enjoy the full use of home appliances and power tools.

They consume no fuel, drawing power from your battery system and also draw minimal battery power when not in use. Gas generators, by comparison, require frequent, costly trips to the pump. In addition, if a gas generator shares a single fuel tank with a vehicle engine it forces you to choose between fueling your generator or extending your drive time between fill ups.

Power Inverters are available in a wide range of sizes to support every application. Delivering up to 3000 watts of continuous power, you can run multiple tools and appliances simultaneously!

Product Highlights – Cobra

Power your adventures, road trips, or your jobs with Cobra's line of vehicle power inverters. Easily convert your vehicle's DC battery into usable AC power with our inverters, ensuring your tools, appliances, and electronics can stay powered on the go. Ideal for truckers, job sites, campers, and RV life, count on Cobra power inverters when you want to work, play, or get away.

- **Ideal for All Tools & Appliances:** Provide the power to work, play, or get away with the PRO 3000W inverter for your power tools and large appliances
- **90% Efficient Modified Sine Wave:** Highly efficient at converting DC to AC power, giving your devices and appliances longer run times and vehicle battery life
- **Continuous Power:** Continuous power can help safely power everything from electronics to power tools to appliances.
- **GFCI Protected AC Outlets:** Easily power your devices, tools, or medium to large appliances with grounded AC outlets
- **USB Fast Charge Ports:** Quickly charge your smartphones, tablets, or other mobile devices from the convenient USB-A and USB-C ports
- **Pentagon Protection Safety:** Built-in protection for Over Temperature, Reverse Polarity, Over Voltage, Low Voltage Alarm, and Low Voltage Cutoff

- **Cobra Remote Compatible:** Monitor and charge devices with Fast Charge USB from anywhere inside your vehicle
- **(2) red, (2) black 48" #4 AWG Cables:** Includes heavy-duty direct to battery cables to run your appliances within easy reach
- **LED Digital Display:** The LED display will show you voltage (V), kilowatts (kW), watts (W) and error codes
- **Industry-Leading Safety:** When you need safe and reliable portable power, nothing comes close to a Cobra
- **Rugged Industrial Design:** Designed to look and work great in your car, truck, RV, or semi

Product Highlights – Samlex

Modified Sine Wave Power Inverters

The SAM Series' small size and durable construction is a great inverter for household electronics and appliances such as toasters, kettles, stovetops, phones, speakers, laptops and TVs.

- High Efficiency
- Compact design
- Easy to install and operate
- GFCI outlets
- Optional SAM-RC remote
- Load controlled cooling fan
- Low battery input alarm
- Universal Protection Circuit – thermal, battery, overload, short circuit, earth fault
- Soft start technology
- Cool surface technology
- Low interference technology

Pure Sine Power Inverters

The NTX Series delivers reliable, high-power performance with a simplified design, making pure sine power more affordable. The lineup comes with models ranging from 1000 to 3000 watts. Each NTX power inverter comes with the sleek NTX-RC remote included, for straightforward operation of the inverter.

The lightweight and compact design of the NTX series was developed for small to mid-sized recreational and commercial vehicles. With its unique Hypersurge™ technology, the NTX Series is a great choice for powering a fridge, microwave, or power tools in Class B RVs (camper vans), travel trailers, work vans and long-haul commercial trucks.

- **Hypersurge™ Technology:** With its unique Hypersurge™ technology, the NTX can support surge for longer, allowing it to start demanding loads with ease and efficiency
- **Compact & Lightweight:** Ranging from 5.4lbs to 12lbs, the NTX Series is one of the lightest power inverters in the market and was designed to fit easily into the small storage compartments in camper vans, trucks and trailers

- **Quiet Operation, ETL & FCC Certified:** Features a single, load-controlled variable speed fan for quiet operation and is ETL safety certified and FCC certified to ensure minimal electrical interference while powering sensitive equipment
- **Innovative Twist-Lock Outlet:** Features an innovative 30 Amp NEMO L5-30R twist0lock outlet and mating plug for full power utilization and built-in GFCI protection without hardwiring
