

Dometic and Vitrifrigo Mobile Refrigerators:

- Are available with installation kits for most heavy duty truck make/model applications
- Are designed specifically for heavy duty trucks and are not sold through retail stores
- Offer drivers a convenient way to keep food, beverages and perishables cold and fresh while on the road

Product Highlights – Dometic

Experience the future of refrigeration with Dometic's NRX Series, where cutting-edge modularity meets sleek style and unmatched durability. Elevate your on the road experience with a fridge that goes beyond expectations.

- **Modular Transformation:** NRX50T converts to full refrigerator, full freezer, or refrigerator with freezer for cargo versatility in semi-trucks
- **Modern Design:** Features a refreshed interior and frameless door design with bottom and upper shelves, adding a touch of sophistication to the cabin
- **Extreme Durability:** Built tough with the AMV20JZT Compressor.
- **Energy Efficiency:** Improved energy efficiency keeps you powered up on the go
- **Easy Installation:** Straightforward setup, enhancing convenience on the road
- **Peace of Mind:** Comes with a 3-Year Warranty

Product Highlights – Vitrifrigo

Designed and entirely made in Italy, Vitrifrigo truck refrigerators and freezers provide a modern and high-performance product for your vehicle.

Vitrifrigo's refrigerators excels in practicality and functionality, offering several notable features:

- 12 VDC compressor driven combo refrigerator / freezer
- 40W power consumption
- Run time is approximately 50% in 25°C (77°F) ambient and internal temperature of 2.5°C (36.5°F)
- Insulation is high density, CFC-free, polyurethane foam
- Exterior is galvanized steel
- Door is constructed with galvanized steel front for durability and includes replaceable gloss black panel
- Door latch assures positive closure with incorporated air vent for quick re-entry
- Storage area is white thermoformed plastic for easy cleaning
- Interior LED light is activated by motion sensor
- Adjustable electromechanical temperature control
- Low voltage and overvoltage protection
- Forced air, fin and tube condenser saves space and improves performance
