3 years / No-Fault / Unlimited Mile Warranty

Low current draw allows cooler operation for higher efficiency and longer life

Industry-leading power-to-weight ratio for faster starts

Soft-start technology reduces mis-engagements

Designed to eliminate the need for OCP (over-crank protection)

## Mitsubishi Electric Diamond Gard Starters

## General Product Information

### Starters

Mitsubishi Electric heavy duty starters are standard equipment on most Class 8 trucks manufactured in North America today. These starters have been designed, engineered and manufactured to exceed the truck manufacturer's specifications and industry requirements. Mitsubishi Electric offers these same high quality OE starters in the aftermarket with our Diamond Gard products. The Mitsubishi Electric Diamond Gard starters have an industry-leading power-to-weight ratio for faster starts and reduced vehicle weight, a high efficiency design to withstand the extreme start-stop requirements resulting from anti-idling laws, and have a lower current draw than the competition which results in improved reliability and less battery discharge every time you start your truck. Most importantly, Mitsubishi Electric Diamond Gard starters carry the best warranty in the business. If it fails, we'll replace it. Guaranteed.
