Alliance Brake Pads

Product Highlights

Features & Benefits

- All pads are positive molded for the highest quality.
- Pads are made using world class friction materials tailored to each application that exceeds OE standards.
- Environmentally responsible. No copper or heavy metals found in brake pad material.
- Every pad has an anti-corrosion powder coat for increased life and durability in the harshest environments.

- Brake pad sets all come with high quality brake hardware kits to restore the brake performance to the new condition and ensure worry-free installation.
- This leads to longer pad life and reduced disc wear, minimizing down-time.
- Brake pads are quiet, low dust and possess great high temperature performance.
