Alliance Wheel Bearings

First Fit Wheel End Bearings for the Commercial Vehicle Aftermarket

Product Highlights

First Fit Wheel End Bearings for Commercial Vehicle Aftermarket.

One year unlimited mileage warranty.

Crowned raceways and rollers for optimum roller to raceway contact for increased load capacity.

Superior component finishes yield lower running torque and operating temperatures for longer life.

Vacuum degassed 52100 bearing steel ensures durability.

World Class quality of < 2 PPM provides confidence for a critical wheel end application.

Cup and cone dimensions are interchangeable with leading US bearing manufacturers.

General Product Information

Alliance Wheel End bearings are manufactured in modern world class factories, with a world class quality rating of < 2 PPM.

The Alliance offering contains the majority of all wheel end bearings used in the Class 8 Truck and Heavy Duty Trailer market of North America, including the Half-Stand Bearing Sets 427 – 432 for ConMet PreSet hubs.

Numerous Alliance individual cups and cones are also available from the Daimler PDC's. Please note that we highly recommend the purchase and installation of complete bearing SETS and follow the TMC Recommended Practice 618A.

Warranty information

1 year unlimited warranty
