Eaton Genuine Clutches

Genuine Clutches

- Eaton is a leading worldwide supplier of medium and heavy-duty clutches to the commercial vehicle industry. Our clutches are unmatched in terms of reliability, durability, and performance, and are the best value on the market today.

Advantage Series

- Original Equipment (OE) clutch which delivers more protection with less maintenance, and offers maximum uptime and performance. Available in both self-adjust and manual adjust models.

EverTough Series

- The reliability and durability of genuine Eaton components for longer life, trouble-free operation, and less downtime for your truck. Available in self-adjust and manual adjust models.

General Product Information

Vibrations destroy drivetrains, and the clutch is the main defense against vibrations in your driveline. In fact, ninety percent of a clutch's work cycle is spent dampening these vibrations from the engine to the drivetrain. Eaton engineers work with engine and vehicle manufacturers to design clutches that provide the best protection for high-value drivetrain components. Our proprietary disc facing compounds reduce facing wear, extend clutch life, and deliver the smoothest engagement and highest coefficient of friction in the industry. In addition, our torque and thermal management systems improve performance and reduce linkage noise and wear, while our pre-damper technology reduces idle rattle noise.

Warranty Information

Eaton standard clutch warranty:

Eaton Advantage Series: 3 Year / Unlimited Miles

Eaton EverTough: 2 Year / Unlimited Miles

Eaton Remanufactured: 1 Year / Unlimited Miles

Extended warranty options:

Eaton Clutch + Clutch Installation Kit = Additional 1-Year Clutch Warranty
