A Brand of

Genuine TRW Remanufactured Steering Gears

Important Info

Using unrivaled engineering expertise and unmatched global resources, TRW has pioneered numerous innovations, and we continue to advance efficiency, power and performance throughout the industry. We are experts in development, design and manufacturing of quality precision heavy duty steering systems – always engineered to proprietary specifications and rigorously tested to ensure peerless performance. That's why a majority of heavy duty trucks on the road feature TRW steering systems, parts and components. Plus, every TRW product is backed by ongoing support from the industry's most respected leader.
