Product Highlights

ToggleLink Air Suspension
Provides greater stability to reduce vibration to operator and lessen fatigue

Contemporary Styling / Enhanced foam
Atlas II newly designed foam contours and enhanced to provide increased comfort levels for driver. 3' of foam on centerline provides more support for the ischia area.

Quad Chamber Air lumbar support
Quad Chamber air lumbar has two bags for the lower back and two bags for the upper portion. The bags are located on either side of the spine area, to alleviate pressure directly on the spine that can cause fatigue.

Independent seat tilt / seat extension
Easy to use front mounted controls operate the seat tilt independently of the seat extension. This allows for the greatest amount of flexibility to fit the driver for maximum comfort.

Magnetic Ride Control - Atlas ActiveVRS
Magnetic Ride Control suspension system reduces the exposure to Whole Body Vibrations (WBV) by up to 65% versus normal passive suspension, resulting in lea fatigue and healthier drivers.

Atlas II

General Product Information

Sears Seating truck seats have been designed to provide more comfort to the driver over the long haul with innovative features that reduce Whole Body Vibration (WBV) and promotes the health and well being of the driver

Warranty Information

Atlas II / Sentry

Five (5) year limited warranty on structural components/ one (1) year covers /foam, valves.

Atlas II *Active*VRS

Five (5) year limited warranty on structural components / one (1) year covers /foam, valves / two (2) years on Magnetic Ride Control system.
