

Alliance offers a comprehensive range of V-belts and serpentine belts designed to cover a broad range of applications, making them compatible with different makes and models of vehicles.

Quality and Durability:

- Alliance belts meet or exceed industry standards for quality and durability. They are designed to withstand the demands of heavy duty truck engines.

OE Specifications:

- Alliance belts meet or exceed Original Equipment (OE) specifications.

Alliance V-Belts

Alliance V-Belts Features

- Synthetic Tension members with balanced twisted cords ensure neutral tracking
- Adhesion rubber layer for internal belt integrity
- Proprietary EPDM rubber compound for quite operation and long-life
- Precision ground sides for maximum pulley contact
- Molded radial cogs for enhanced flexibility

Alliance Serpentine Belts

Alliance Serpentine Belts Features

- Synthetic Tension members with balanced twisted cords ensure neutral tracking
- Adhesion rubber layer for internal belt integrity
- Proprietary EPDM rubber compound for quite operation and long-life
- Precision ground ribs for maximum pulley contact

Alliance Belt Tensioner

Alliance Serpentine Belts Tensioner Features

- Precision machined castings for exact fit
- High quality springs are used to ensure proper belt tension
- Self lubricating bushing(s) for smooth trouble free operation
- Permanently sealed, lubricated bearings are designed for high speeds ensuring durability
- OE spec pulley for proper form, fit, design, & operation

General Product Information

- **Comprehensive Application Coverage:** Belts & Belt Tensioners from Alliance are engineered to cover a wide range of vehicle makes and models, supporting the modern accessory drive systems.
- **High-Quality Materials:** Alliance Belts & Belt Tensioners are crafted from high-quality materials, such as EPDM rubber, for durability and resistance to wear and degradation.
- **Precision Engineering:** Alliance Belts & Belt Tensioners are manufactured with precision to meet strict tolerances and specifications, ensuring proper fit and alignment.
- **Efficient Power Distribution:** A well-designed Belt & Belt Tensioner ensures efficient power distribution to various engine accessories, contributing to optimal performance.
- **Quiet Operation:** Quality Belts & Belt Tensioners are designed to operate quietly, minimizing noise in the engine compartment.
- **Longevity and Durability:** Alliance Belts & Belt Tensioners are constructed with features that enhance their lifespan, contributing to reduced maintenance and replacement costs.
- **Resistance to Environmental Factors:** Alliance Belts & Belt Tensioners are designed to resist environmental factors, including heat, moisture, and contaminants, for reliable performance in diverse conditions.

Warranty Information

1 year/unlimited mileage.
