DURA-LITE™

Charge Air Coolers · Radiators

Plastic Tank Radiators

DURA-LITE™
Charge Air Coolers · Radiators

We improved areas that are prone to failure in

some OE and after market radiators

Extra stainless steel outer crimp strips

Reinforced inner metal hose connections and mounting sleeves

Our tanks are built tougher and are able to flex under pressure

This stops stress cracking and *leaks which can happen with less flexible plastic tank & all-aluminum radiators*

Outlook

Why choose a Dura-Lite replacement truck radiator?

At Dura-Lite, we asked the question: Why is something as essential as a radiator still so unreliable? We answered by making stronger fiber-reinforced tanks that prevent stress cracking that can happen with less flexible plastic-tank radiators.

Our commitment to quality and excellence means Dura-Lite heavy-duty truck radiators offer a higher level of durability as well as solutions to the most common problems drivers face. This keeps you out of the shop and back on the road.

Stronger fiber-reinforced tanks.

Heavier gauge headers for unsurpassed durability.

Extra header-stiffening plate, eliminates common leaks.

More reliable

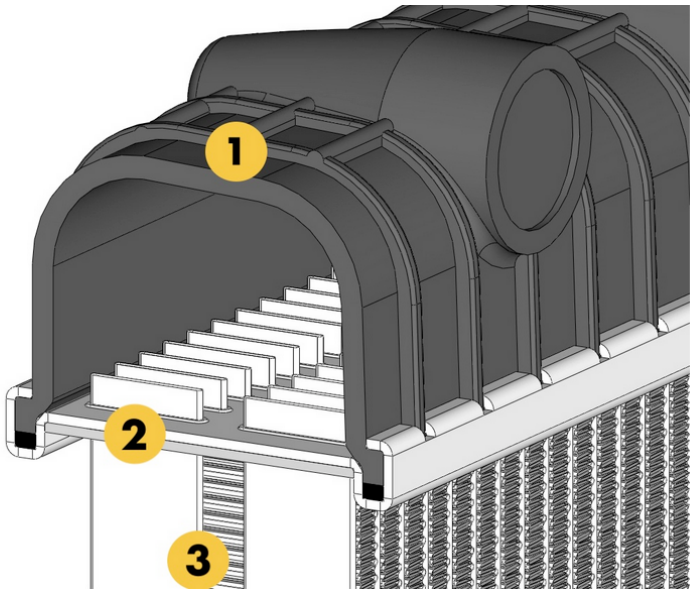

Reinforced headers and an extra stiffening plate

We use reinforced headers and an extra stiffening plate, which prevents leaks from happening between the tank and header and tubes and header. Our thicker, stronger, and more flexible tanks and reinforced headers ensure that our radiators remain durable and last for longer.

More efficient

Higher efficiency core design and reinforced tubes

Our heavy-duty semi-truck radiators have a higher efficiency core design and reinforced tubes so that there is extra strength where it is needed. Dura-Lite headers include extra deep crimp tabs, reinforced tank crimp area on the tanks and extra stainless-steel outer crimp strips used to reinforce applications with traditional style crimp designs.

1. STRONGER FIBER-REINFORCED TANK
2. REINFORCED HEADERS AND EXTRA HEADER-STIFFENING PLATE
3. HIGH EFFICIENCY CORE DESIGN AND REINFORCED HEAVY-GAUGE TUBES

Product Highlights

Extra header stiffing plate

Eliminates the majority of leaks between the tank and header

Heavier, stronger headers for unsurpassed durability

Stronger fiber-reinforced tanks

100% leak tested before leaving the factory

DHT KE1213002PT	Dura-Lite™ Radiator - No Frame (1 Year Warranty)	KENWORTH C500 2007-2015, T600 2007-2017 and T800 2007-2017
DHT PE1009002PT	Dura-Lite™ Radiator - No Frame (1 Year Warranty)	KENWORTH T400 2011-2021 and W900 2008-2021, PETERBILT 384 2008-2021, 386 2008-2021 and 587 2008-2011

General Product Information

Dura-Lite™ offers a number of different heat transfer solutions. Our professionally certified engineers can also custom design Charge Air Coolers, Oil Coolers, Radiators, and Radiator/ Charge Air Cooler Cooling Modules for any application.

Warranty Information

1 year warranty on Dura-Lite radiators.
