Product Highlights

Extended bushing life

Weight efficient

High-strength

Durability tested to Hendrickson's rigorous standards

Integrated concept development alongside suspension and springs

General Product Information

One Piece Torque Rods

TRAXX ROD is a fabricated rod body with robotically welded and curled end hubs combined with Hendrickson's proprietary rubber bonded bushings. **TRAXX ROD performance** is **five times** the performance life of conventional double shot bushings and similar performance of ball and socket torque rods, with better energy absorption, delivering superior bushing retention and longer component life for heavy- and severe-duty applications.

ULTRA ROD PLUS – forged rod body with integrated end hub utilizing Hendrickson's proprietary rubber bushing compound and bonded technology, also available with Hendrickson's exclusive XTRB bushings.

ULTRA ROD – forged rod body with integrated forged end hub utilizing Hendrickson's proprietary rubber bushing compound and bonded technology.

Two Piece Torque Rods

ULTRA ROD PLUS and ULTRA ROD Two Piece Torque Rods – eliminate the need to carry a vast array of one piece torque rod inventory…just measure, cut and weld. Two piece torque rods with empty hubs or equipped with bushings provide the option to make any length torque rod with any bushing configuration.
