Hendrickson Suspension Bushings

High Confinement Center Bushing is integral to the performance of many Hendrickson walking beam suspensions. By encasing a high-density rubber bushing inside a curled metal sleeve, we combine the outstanding elasticity of our proprietary rubber compound with the high tensile strength of steel. Tests prove this design can double, or even triple, the service life of other rubber bushings, meaning far fewer rebushings over the life of your vehicle. Hendrickson Genuine Parts.

Product Highlights

Rubber Center Bushings - Proprietary rubber compound provides maximum bushing life while maintaining system performance attributes

High Confinement Center Bushings - maintaines a high resistance to bushing walkout over a longer period of time

Full Bonded Center Bushings provide the extra strength and durability necessary to routinely handle heavy loads

Bronze Center Bushings' grease channels are precisely cut and located to ensure proper grease flow and long bushing life

Top Movers - Bushings

Item Number	Part Description
HDR 29878 001L	R520 END BUSHING
HDR 47691 000L	BUSHING-TORQUE ROD,2IN X 4 3/8
HDR 44695 000L	TORQUE ROD BUSHING
HDR 05919 000L	R440 CENTER BUSHING
HDR 44697 000L	TORQUE ROD BUSHING
HDR 45900 000L	R460 END BUSHING
HDR 30057 008L	SPRG EYE BUSHING
HDR 44694 000L	TORQUE ROD BUSHING
HDR S 21099	BUSHING TUBE SPACER
HDR 47692 000L	BUSHING-TORQUE ROD,HA/E4,BOXED

General Product Information

Hendrickson Equalizing Beam Center Bushings

Each Hendrickson center bushing is engineered for specific types of Hendrickson walking beam suspension capacities, applications and configurations to maximize system performance. To help ensure high end user satisfaction and peak system performance, Hendrickson supplies the same genuine components for service requirements as were installed in the original suspensions.

Warranty Information
