

About BettsHD

With over 150 years of manufacturing expertise, BettsHD continues to drive innovation in the commercial vehicle industry, delivering solution-based products designed to enhance safety on roads and highways.

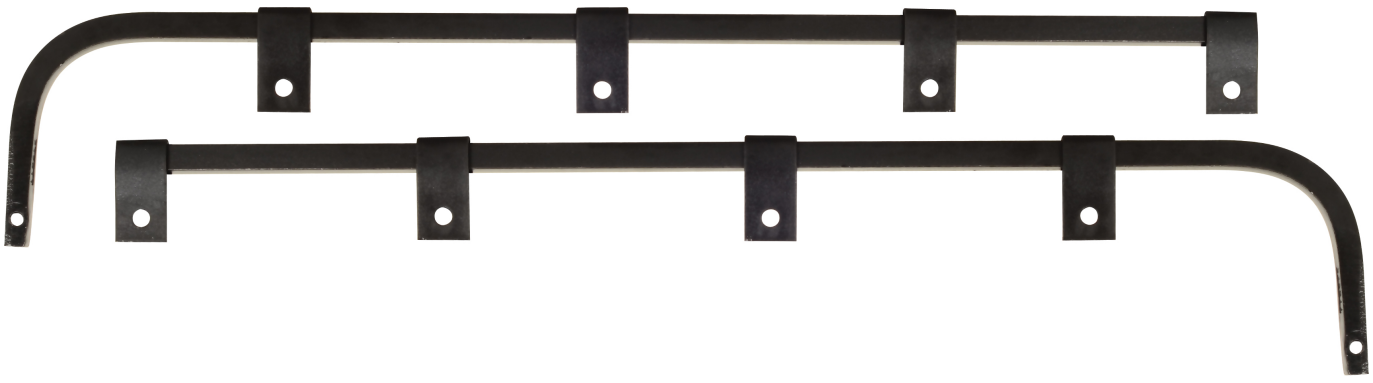

Renowned for quality and durability, BettsHD's spray suppression products–featuring patented mud flap hangers and premium metal fenders–are trusted across the industry. From the DirectFlex line of mud flap hangers to a wide selection of steel and aluminum fenders, BettsHD remains a leader in providing tough, reliable solutions for the most demanding applications.

Now part of the High Bar Brands family, BettsHD is committed to manufacturing high-quality parts that help drivers and fleets move more efficiently, safely, and with confidence.

Product Highlights

Bar Type Mud Flap Hangers

We offer straight and angled bar types; both styles are available in rigid or coiled configurations. The best option for cost-conscious drivers.

Spring Loaded Mud Flap Hangers

Specially designed to resist corrosion and wear caused by debris. Straight, angled, and straight-tapered models are available. If you're looking for a long-lasting mud flap hanger, spring loaded is the way to go.

Metal Fenders & Brackets

BettsHD metal fenders provide a visually appealing look, while protecting the truck body and other automobiles on the road from sand, mud, rocks, liquids and other flying debris caused by the truck's rotating tires. They are necessary components to ensure safe highway driving–might as well look good while using them.

Poly Fenders & Brackets

The poly single axle fenders come in a range of sizes and configurations to fit almost every truck on the road. Manufactured from durable, lightweight polyethylene in “3-up” style with radiused edges, our poly truck fenders are designed for both single- and dual-wheel applications.

Warranty Information

BettsHD is part of a family-owned business founded in 1868. You can count on BettsHD answering your phone call or email and solving problems related to product damage or defects, just like we have for nearly 150 years.

Our standard product warranty is extensive but one element of our 100% Customer Loyalty Promise stands out: BettsHD promises to be loyal to loyal customers. We demonstrate our loyalty by considering any reasonable request for product support outside the terms of our legal product warranty and responding promptly and professionally.

Our promise of loyalty extends to and through our distributor partners, who are often best positioned to provide immediate response to problems causing downtime. We will “make things right” in ways you may find noteworthy and surprising. Rest assured we have not sustained a successful business for nearly one hundred fifty years by turning our backs on loyal customers whose problems we are compelled to solve.
