ATRO HEAVY-DUTY TRUCK PARTS

Performance that drives your success.

ATRO Load Pads

New Parts 1/8/2026!

ATRO Part Number	Description	Application
SW46-19496	Sway Bar Bushing / Freightliner MT45/MT55	Designed for high-mileage Freightliner MT45 and MT55 delivery vans, this sway bar bushing helps control body roll and restore stable handling on vehicles that see constant stops and tight turns. ATRO polyurethane resists oils, chemicals, and road contamination better than rubber, helping reduce premature wear and extending service life.
SP54-11730	Leaf Spring Bushing / Hino	This Hino front suspension leaf spring bushing supports critical suspension pivot points that take constant load and vibration. ATRO's customized polyurethane formula is more durable and reliable, helps maintain proper alignment, and extends service life. Replace all 6 busings per vehicle for optimal performance.

Top 5 By Category - Load Pads

ATRO Part Number	Description
LP46-24807	Spring Insulator Pad, Lower
LP46-24581	Spring Insulator Pad, Upper
WP50-29929	Wear Pad
LP46-19773	Spring Pad
LP46-24808	Spring Insulator Pad, Upper

Product Highlights

ATRO polyurethane load pads for heavy-duty trucks. Engineered to absorb shock, reduce bounce, extend component life, and support whole system integrity.

Why choose ATRO Load Pads?

- ATRO utilizes proprietary polyurethane formulations that are 3–5× stronger than rubber, resisting oil, grease, road salt, hydraulic fluid, and cleaning solvents.
- Unlike traditional rubber “elephant’s feet” pads, ATRO’s low-rebound material eliminates bounce and helps absorb shock—resulting in smoother ride quality, less stress on surrounding components, and reduced cab damage.

Compatible with complete system upgrades.

ATRO load pads are designed to integrate seamlessly with our suspension kits and components. When installed as part of a whole-system approach, you maximize alignment accuracy, minimize mismatched wear, and simplify future maintenance.
