Alliance Parts - NOx Sensors

Alliance NOx Sensors provide a coreless, cost-effective solution without compromising on quality. Each sensor is closely inspected and tested to ensure proper functionality, and is individually calibrated by OES for assurance of accuracy. All materials meet strict OE specification.

Product Highlights

Compatibility: All sensors operate with OE software, ensuring full compatibility with controllers and diagnostic compliance

Quality: Production facility is ISO9001 certified

Coreless: Alliance NOx Sensors are a coreless option

Calibration: All sensors individually calibrated by OES for assurance of accuracy

Inspection: Every sensor is closely inspected and tested to ensure proper functionality

Availability: This product is not permitted for sale in the state of California

Warranty Information

Alliance 1 year warranty
