DETROIT REMAN

Features & Benefits

Assured Quality Standards: Rigorous inspection of every component after complete disassembly and cleaning. Original components or validated equivalents are used in the reassembly process. 100% new O-rings and gaskets are used.

Industry Leading: Industry leading processes establish customer confidence in product quality and reliability. Leak- tested to ensure quality standards are met.

Environmental Impact: Retain oil in engine and not released to the environment so decreased oil consumption. No filter used, less waste. Low power consumption.

Cost of Ownership: A Reman option provides an economical choice while maintaining the same standards and functionality as Genuine. No service required during life of diesel engine.

Warranty: We stand behind our product with 1-year / unlimited miles.

Sustainability: Remanufacturing creates a circular economy that uses less energy and generates less waste - 56 tons of plastic are saved from landfills.

Nationwide Availability: Proudly remanufactured in North America and available at over 800 locations.
