

UFI Filters Heavy Duty is a Global O.E. Supplier

UFI IN THE OE MARKET

Vehicle manufacturers must guarantee the highest levels of efficiency and safety, especially when it comes to heavy duty vehicles which
cover long distances every day. That is why it is important to be able to rely on top level suppliers like UFI, with its extensive range of products.
UFI supplies its OE products to manufacturers who account for 48% of the global production of heavy-duty vehicles including:

- Daimler
- Deutz
- FAW
- Ford
- Iveco/CNH Industrial
- Isuzu
- Kamaz
- Man*Mitsubishi
- Scania

OE Form, Fit, Function

UFI Products meet or exceed OE requirements.

General Product Information

UFU R61709

UFI Fuel filter element UFU R61709 is a Daimler Certified Genuine replacement for 2012-2025 DD13/DD15 & DD16 Applications. The filter is made of FormulaUFI.H2O filter material, a combination of meltblown and cellulose, which achieves a filtration capacity of 98% at 10 microns, according to ISO 19438.The media is coupled with a hydrophobic inner septum, so that a water separation capacity of up
to 90%, according to ISO 16332, is guaranteed. Thanks to the high efficiency and dirt-holding capacity, i.e. it is able to remove the smallest particles from the diesel fuel, UFU R61709 contributes to preserving the integrity of the engine’s injectors.

Plus

+ Meets or exceeds OE Requirement

+ Includes O-Rings for easy installation

+ > 95% Water Separation Efficiency

+ Protects and maintains integrity of Engine Fuel System

+ Filtering media in FormulaUFI.H20

UFI Flyer

Warranty Information

Service Time and Mileage

Company's time and mileage limits shall conform to the standard time and mileage limits provided by Daimler Truck North America LLC to its customers as reflected in the current Daimler Truck North America LLC warranty documentation.

In the event of a product failure rate exceeding 10% within the basic warranty period, Company's minimum support of policy and extended coverage claims beyond the base warranty period, shall be reimbursed for parts cost at dealer/fleet processed value plus handling if applicable.
